

Product Description

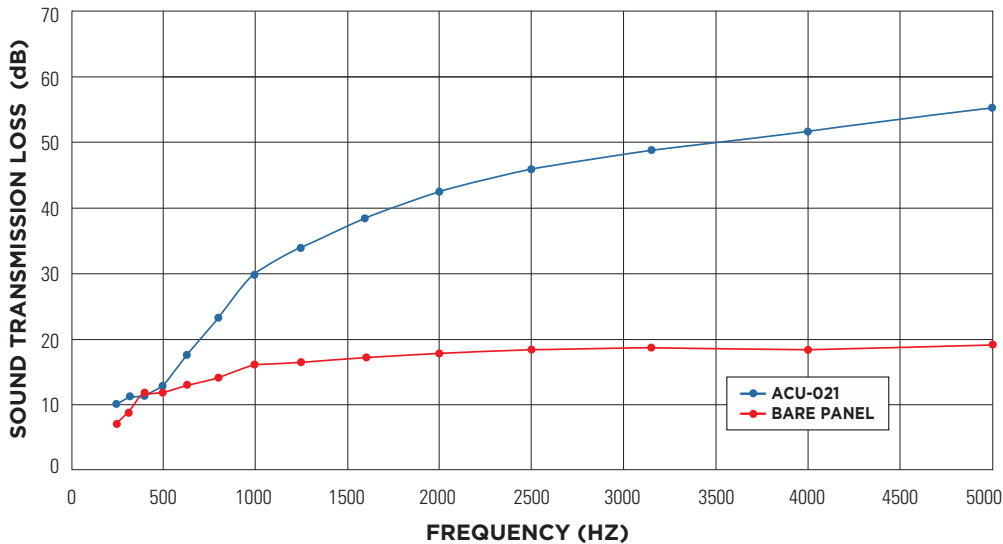

E-A-R's new addition to our carpet pad family is a combination of two engineered aerospace technologies: 3M™ Thinsulate™ AV-700 acoustic insulation and E-A-R QL Damping Barrier. This combination creates a superior acoustic material for a quieter, more enjoyable experience than traditional carpet padding options. Its high sound transmission loss, low water absorption and light weighting make it the perfect choice for aircraft carpet padding.

- Reduces system noise
- Controls thermal loss
- Reduces vibration
